Prior to today’s meeting proposed bills which would update W. Va. Code § 30-3-1. *et seq.* and W. Va. Code § 31B-13-1301. *et seq.* were made available for members to review. - Permits:

 - The Board to establish circumstances in which the approval of applications and the issuance of licenses and other practice credentials may be delegated to board staff.
 - The use of electronic signatures on licenses and other practice credentials.
- Reorganizes licensure types into two categories:
 - Licenses that require an examination.
 - Special license types.
- Repeals:
 - Regulation of radiologist assistants.

- Licensure to practice at certain state veterans nursing home facilities.
- Licensure by endorsement.
- The issuance of temporary licenses.
- Language in the medical school faculty section which provides that the Board will accept licensure from a country which has substantially equivalent requirements for licensure as other US states, the District of Columbia, the Commonwealth of Puerto Rico or Canada.

The Committee directed board staff to research this issue more fully and see if a resolution can be reached which protects the integrity of the licensure process and provides more flexibility to medical school faculty licensees to practice within a broader geographical area under certain conditions. The Committee will revisit this issue in November.

Dr. Rahim reported that as part of the report of the West Virginia Performance Evaluation and Research Division (PERD) to the West Virginia Legislature, PERD recommended that the West Virginia Medical Imaging and Radiation Therapy Technology Board of Examiners be consolidated within the Board of Medicine. Board staff will monitor legislation introduced during the 2025 session of the West Virginia Legislature and will report to the Committee if a consolidation bill is introduced.
