Dear Dr. Hager:

At the July 13, 1986, meeting of the Licensure Committee you appeared in support of your application for permanent licensure to practice medicine and surgery in the State of West Virginia.

It was the recommendation of the Committee to the Board at its regularly scheduled meeting on July 14, 1986, that you be granted a license with the following conditions:

1. That this license is granted with a probationary period to July 13, 1987;
2. That written progress reports be prepared and filed quarterly with the Board of Medicine by David F. Colvin, M.D. These progress reports must clearly contain a summary of your continued treatment and performance during this probationary period and should be received no later than November 1, 1986; March 1, 1987; and July 1, 1987.

PRESIDENT
S. Eileen Catterson, MD

Dear Dr. Hager:

At the July 12, 1987, meeting of the Licensure Committee, reports of the conditions which were placed on your license of July 14, 1986, were reviewed and discussed. It was the consensus of the Committee that all conditions of this probationary period have been satisfactorily completed.

It was the recommendation of the Committee to the Board at its regularly scheduled meeting on July 13, 1987, that the probationary status and conditions placed on your license be removed. Subsequently, the Board adopted the Committee's recommendation.

Thank you for your cooperation and patience throughout this process.

Sincerely,

Ronald D. Walton
